

Logitech® Z-560

4.1 configuration • 400 Watts • THX® Certified

Put 400 watts of awesome power to work for PC games, music and DVDs. Our patented M3D technology delivers realistic surround sound from standard two-channel stereo sound sources.

Logitech's award-winning speaker system for premium sound. This THX®-certified 4.1 surround sound system provides 400 watts of awesome power for PC games, music and DVDs. The brute force subwoofer design delivers huge, room-thumping bass while the satellite drivers enhance mid- and high-range tones.

- Five-piece system makes you feel like part of the action in games and DVD movies
- Patented M3D™ delivers realistic surround sound from standard two-channel stereo sound sources such as music CDs and MP3 files
- SoundTouch™ Control Center lets you fine tune your listening environment
- Home stereo style connectors use standard speaker wire so you can place the speakers anywhere you choose

Superior THX®-Certified Audio for PC Games, Music, and DVDs

- Five-piece system including powered subwoofer and four satellite speakers
- M3D technology for realistic surround sound for extreme gaming and PC desktop theater
